28mm: RT-28 *New*

The 28mm rotary cutter is best for small scale object.
This blade size allows you to handle better along any patterns with many curves.

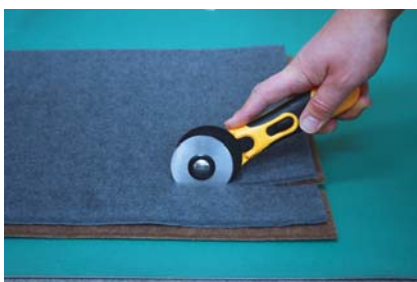

45mm: RT-45

The most popular cutter size "45mm" is available with the RT-45.
Perfect for general cutting, quilting, sewing and craft projects.

60mm: RT-60 *New*

KDS' largest rotary cutter used a 60mm blade and can easily cut up to some layers of paper and fabric.
This cutter is very useful for heavy fabrics and thick papers.

For details, please contact your KDS representative.
